

## TO FLOAT OVER FREEDOM.

Four Flags Will Be Added this Month to Those Already in Existence—Crete, Norway Hope to Be Represented.

It is not often that a new flag is added to the page of brilliant national signals. It is usually to be found in every good flag book and dictionary. Nor is it a year that can boast of having seen so many new flags.

Some extraordinary events during the next twelve months are expected to add to the list of flags. The flag of Crete, which has been in existence for some time, is expected to be added to the list of flags. The flag of Norway, which has been in existence for some time, is expected to be added to the list of flags.

## THE NAVY OF 1900.

The Plans of the Navy Department and What It Means to the Country.

Phrases about "the lessons of the war" have grown to be common within the last two or three months that it is a matter for no small wonder that the general reader has not known of the general interest taken in the results of the war than the activity with which the subjects under that head are devoured by newspaper and magazine readers.

To the present military movements of the war have had comparatively few chroniclers while the naval movements and battles have been so variously and copiously reported that the man who is not through a familiar with all the details of the ships that fought the war is the exception instead of the rule, as was the case before the Maine was blown up in Havana harbor.

THE OLD NAVY.

To keep up with the increases in our "new navy," however, one who wishes to be thoroughly informed must devote a great deal of time and money to the study of the progress of the growth of that formidable fleet that is to be as an appendage in reading of the old navy's glorious deeds at Manila and at Santiago. These two victories cost the United States \$12,000,000 for ammunition, when it is considered the position in which we were placed our country in the area of the great powers abroad, and the change in public opinion at home regarding the usefulness of the officers of the navy and the fighting ships.

These figures, however, would not show a very cheap person had they cost \$100,000,000 that it was at first reported had been spent in armaments.

The naval programme of the United States authorized for this year will require the expenditure of nearly \$200,000,000 for the completion of no less than 25 vessels. It includes the establishment of a complete fleet of transports numbering about 16; and it will probably increase the number of our fleet to 300 men. These figures, however, are from the viewpoint of a year ago—now almost a year.

But they represent nothing more than taking to the "lessons of the war" in its spirit that is consistent with the new idea of the economical administration of both the army and the navy.

THIS EXPENDITURE.

Fifty-five millions may seem a good deal to expend in one year. When compared with the sums allotted by the other naval powers it is a veritable bagatelle, as the following figures, from an official report, will show.

Great Britain is building or about to build 100 ships, upon which she will expend \$107,000,000, and will increase her personnel by 50,000 officers and men this year. Russia is planning a programme of naval expansion calls for an expenditure of \$118,000,000. France is adding to her fleet at an expense of \$144,000,000. Germany has a programme looking to the expenditure of \$200,000,000, and Japan's programme calls for an expenditure of \$100,000,000. Yet small as our expenditure may seem in comparison with these, the completion of the programme will place the United States in third place among the great naval powers.

## THE HOUSE OF COMMONS.

Invention of An Ointment That Guarantees Health, Strength and Beauty by Nature's Method and Cures Without Drugs All Nervous Diseases, Rheumatism, La Grippe, Neuralgia, Kidney Troubles, Weakness and the Most Obstinate Diseases.

Those Who Have Used It Declare It To Be the Most Remarkable Invigorant Ever Produced for Man, Woman or Child.

An inventive genius of Cincinnati, Ohio, has patented and placed on the market a Bath Cabinet that is of great interest to the public, not only the sick and debilitated, but also those enjoying health.

It is a sealed compartment, in which one comfortably rests on a chair and with only the head outside, may have all the invigorating, cleansing and purifying effects of the most luxurious Turkish bath, but

case and all kidney and urinary affections has been found. The Well-Known Christian Minister of Una, S. C., Rev. R. E. Peale, highly recommends this cabinet, as also does Mrs. Kendrick, principal of Vassar college, Congressman John J. Smith, John B. Brown, editor of the Christian Guide, many lawyers, physicians, ministers and hundreds of other influential people.

Reduces Obesity. It is important to know that the inventor guarantees that obesity will be reduced five pounds per week by the use of the vapor bath. Scientific reasons are brought out in a very instructive little book issued by the makers. To

Cure Blood and Skin Diseases. The cabinet is unquestionably the best thing in the world. If people instead of their existing with more poisons, by taking drugs and nostrums, would get into a Vapor Bath Cabinet and sweat out these poisons and assist Nature to do it, they would take a skin as clear and smooth as the most famous cosmetic.

The Great Feature of this Bath Cabinet is that it gives a Hot Vapor Bath that opens the millions of pores all over the body, stimulating the sweat glands and forcing out by nature's method all the impurities, acids and poisons, which, if retained, overwork the heart, kidneys and lungs and cause disease, debility and sluggishness. A Hot Vapor Bath instills new life from the very beginning and makes you feel ten years younger. With the bath, if desired, is a

Head and Complexion Steamer, in which the face and head are given the same vapor treatment as the body. This produces the most wonderful results, removes pimples, blackheads, skin eruptions and

Cures Catarrh and Asthma. L. B. Westbrook, Newton, Iowa, writes: "For forty-five years I have had catarrh and asthma to such an extent that I have eaten out the partition between my nostrils. Drugs and doctors did me no good. The first vapor bath I took helped me and two weeks' use cured me entirely, and I have never had a twinge since." Whatever

Will Hasten Perspiration. Everyone knows, is beneficial, Turkish baths, massage, hot drinks, stimulants, hot foot baths are all known to be beneficial. These methods however are crude and insignificant when compared to the convenient and marvelous curative power of the Cabinet Bath referred to above. The Cabinet is known as the

Quaker's Bathing Thermal. Vapor Bath Cabinet, patented May 18, 1897, and is made only in Cincinnati, Ohio. This cabinet, we find, is durably made of best materials. It is entered and vacated by means of the side door. The cabinet is air tight, made of the best of steel, water-proof cloth, rubber lining, and a folding steel plate frame supports it from top to bottom. The makers furnish a good alcohol stove with each cabinet; also, valuable receipts and formulas for medicated baths and ailments, as well as plain directions.

Another excellent feature is that it folds into a small space that it may be carried when traveling—weighs but five pounds.

will be interesting to those who suffer from these dread maladies. G. M. LaFayette, Cleveland, Ky., writes: "Was compelled to quit business a year ago, being prostrated by rheumatism when your Cabinet came. Two weeks' use of it entirely cured me, and have never had a twinge since. My doctor and I have both been cured. I commend them. Mrs. S. S. Noteman, Hood River, Ore., writes that her neighbor used the Bath Cabinet for a severe case of la grippe and cold, and was cured in about a week. The cabinet is a great blessing to many years' standing and her little girl of measles. A. B. Strickland, Bloomington, Idaho, writes that the Bath Cabinet did him more good in one week than two years' doctoring, and entirely cured him of catarrh, gravel, kidney trouble and dropsy, with which he had been long afflicted.

Another excellent feature is that it folds into a small space that it may be carried when traveling—weighs but five pounds.

Another excellent feature is that it folds into a small space that it may be carried when traveling—weighs but five pounds.

People don't need bathtubs. As this cabinet may be used in any room, thus bath tubs have been discarded since the invention of this cabinet, as it gives a far better bath for all cleansing purposes than soap and water. For the sick room its advantages are at once apparent. The cabinet is amply large enough for any person. There have been

So-Called Cabinets on the market, but they were unsatisfactory, for they had no door, no supporting frame, but were simply a cheap affair to pull on or off over the head like a skirt or barrel, subjecting the body to sudden and dangerous changes of temperature, or made with a bulky wooden frame, which the heat and steam within the cabinet warped, cracked and caused to fall apart and soon become worthless.

The Quaker Cabinet made by the Cincinnati firm is the only practical article of its kind, and will last for years. It seems to satisfy and delight every user, and the makers guarantee results.

They assert positively, and their statements are backed by a vast amount of testimony from persons of influence, that their cabinet will cure nervous troubles and debility, clear the skin, purify the blood, cure rheumatism. (They offer \$50 reward for a case that can not be relieved.) Cures all the troubles, kidney, rheumatism, obesity, neuralgia, headache, gout, sciatica, piles, dropsy, blood and skin disease, liver and kidney troubles. It will

Cure a Hard Cold with one bath, and break up all symptoms of la grippe, fevers, pneumonia, bronchitis, asthma, and is really a household necessity. It is the most

Cleansing and Invigorating Bath known, and all those enjoying health should use it at least once or twice a week, but its great value lies in its marvelous power to draw out of the system the impurities that cause disease, and for this reason is really a Godsend to all humanity. How to Get One.

All our readers who want to enjoy perfect health, prevent disease or are afflicted should have one of these remarkable Cabinets. The price is wonderfully low, space prevents a detailed description, but it will bear out the most exacting demand for durability and curative properties. Write to the World Manufacturing Co., 86 World Building, Cincinnati, Ohio, and ask them to send you their pamphlet and circular describing this invention. The regular price of this cabinet is \$5. Home Steaming Attachment, if desired, \$1 extra, and it is included in the price. Where one could invest that small amount of money in anything else that promises so much real, genuine health, vigor and strength.

Write today for full information, or, better still, order one. It is a Godsend to all who are suffering from any of the ailments mentioned, and it will refund your money if not just as represented. They are reliable and responsible. Capital, \$100,000.00, and fill all orders as soon as received.

Don't fail to send for booklet, as it will prove very interesting reading. This Cabinet is sold by a large number of dealers, and the firm offers special inducements to good agents, both men and women—upon request.

Two Runaways. Valley View, Texas, Jan. 27.—This afternoon, as P. Mitchell of Sanger, Texas, was passing through the town with a load of goods, his team became frightened and ran away, throwing Mitchell from his seat and breaking his right leg just below the knee. Shortly afterward Mrs. P. Boardman and her daughter, Mary, were passing and the horse ran away, throwing both from the buggy, bruising them badly but not seriously.
